JORGE LEON

SOFTWARE DEVELOPER

+3 years of experience as a Full Stack Software Developer, adept at crafting robust web applications with seamless front-end and back-end integration. With a proven track record of success in building scalable, secure, and responsive solutions from conception to deployment, I thrive on tackling the challenges of the ever-evolving tech industry.

EXPERIENCE

Software Developer at Triagons | Culiacan, Mexico | 2023 - Present

- Build and maintain APIs for seamless communication between front-end and back-end systems, ensuring proper authentication, security, and data validation.
- Design and development of scalable, secure, and responsive web applications from concept to deployment.
- Write unit tests and integration tests to ensure code quality and reliability, and debug issues to identify and resolve bugs in a timely manner.
- Create user-friendly interfaces and implement Figma designs.
- Work closely with cross-functional teams including designers, product managers, and other developers to gather requirements, provide technical guidance, and deliver high-quality solutions on schedule.

Software Developer at Supermetales | Cartagena, Colombia | 2018 - 2020

- Created the landing page for the company increasing client contacts by 20% after its deployment.
- Played a key role in outsourcing projects for various client companies, providing development services tailored to their specific needs and requirements.
- Contributed to the success of outsourcing engagements by delivering high-quality solutions, meeting deadlines, and exceeding client expectations.

Technical Support at Supermetales | Cartagena, Colombia | 2017 - 2018

- Provide frontline technical support to internal employees, responding to inquiries and resolving issues related to hardware, software, network connectivity, and other IT-related matters.
- Install, update, and maintain software applications, operating systems, and utilities on employee workstations, ensuring compliance with company policies and licensing agreements.
